TIMKEN

ANIMAL FEED SUPPLIER SEIZES SAVINGS WITH TIMKEN SOLUTION

CHALLENGE

In animal feed production environments, dry and dusty conditions can prove challenging for conveyor chain operation. One major feed producer experienced numerous operational issues related to contamination and frequent lubrication challenges. Along with its need for unorthodox chain lengths when replacement was required, the producer sought a solution for this expensive, ongoing hassle.

TIMKEN SOLUTION

Timken service engineers identified Timken Drives® Extended Life CHP® as an ideal chain replacement for the dusty environment. The Timken solution actively fights against wear and elongation in harsh conditions and is offered with custom cut-to-length services to suit the producer's unique needs, leading to reduced downtime and significant savings.

RESULTS THAT MATTER

- Reduced maintenance and lubrication requirements
- Eliminated regular maintenance requirements
- Major reduction in downtime
