

# TIMKEN® HIGH-PERFORMANCE ROLLER HOUSED UNIT GREASE

### **Lubricating Grease**

#### **Part Numbers**

GR255C 400 g (14 oz.) cartridges,10/case

GR255P 16 kg (35.3 lb) pail GR255D 180 kg (396.8 lb) drum

#### Overview

Timken High-Performance Roller Housed Unit Grease is a lithium complex lubricating grease formulated with 100% synthetic hydrocarbon fluids (PAO). This product has been formulated with a special additive package which insures high film strength, extreme pressure (EP), anti- wear properties and is compatible with most industrial materials.

Timken High-Performance Roller Housed Unit Grease is designed for roller bearings in housed units used in metals, mining, power generation, lumber, construction, off-highway, cement and other heavy industries.

## **Design Attributes**

- Contains solid lubricant moly and EP/AW additives.
- Wide operating temperature range.
- Meets NLGI Certification GC-LB.

## **Product Application**

Timken High-Performance Roller Housed Unit Grease can be applied from ambient temperatures of -40 $^{\circ}$  F to +356 $^{\circ}$  F (-40 $^{\circ}$  C to +180 $^{\circ}$  C) depending on lubrication system design and method of application. Synthetic Industrial Grease has an operating temperature range of -50 $^{\circ}$  F to +356 $^{\circ}$  F (-46 $^{\circ}$  C to +180 $^{\circ}$  C) once in the application.

#### Caution

Follow equipment manufacturer's recommendations concerning lubrication frequencies. Failure to follow correct lubrication practices can result in premature equipment failure.

## **Compatibility of Grease**

Timken High-Performance Roller Housed Unit Grease is generally compatible with calcium, calcium 12-OH stearate, calcium sulfonate, lithium and lithium-complex thickened greases. Timken recommends that all grease be removed from the application prior to changing greases. Then, the lubrication interval is reduced by half

Product: Timken® High-Performance Roller Housed Unit Grease

for the first lubrication cycle before resuming the normal lubrication interval.

## **Handling and Storage**

Store in a dry area away from heat and open flame. See Safety Data Sheet (SDS) for more information.

## **Shipping and Disposal Information**

Follow governmental regulations pertaining to the shipping and disposal of this product. Do not reuse container after use. See MSDS sheet for more information.

## TIMKEN® HIGH-PERFORMANCE ROLLER HOUSED UNIT GREASE

**Product Specifications – Typical** 

Color	Dark Gray
NLGI Grade	2
Thickener Type	Lithium Complex
Penetration, Unworked, ASTM D 217	265 - 295
Penetration, Worked 60 Strokes, ASTM D 217	265 - 295
Penetration Change, 100000 Strokes, ASTM D 217	+5
Roll Stability, ASTM D 1831, 2 hours, 25° C, Change	+50
Dropping Point, ASTM D 2265	235° C min.
Oxidation Stability, ASTM D 942, 100 hours at 99° C	4 psi
Four-Ball Wear, ASTM D 2266, 40 kg, 1200 RPM, 75° C, Scar mm	0.5 max.
Four-Ball EP, Weld Point, ASTM D 2596, kgf	800 min.
Timken OK Load, ASTM D 2509, Pounds	60 min.
Corrosion Preventive Properties, ASTM D 1743	Pass
Oil Separation, ASTM D 1742	4% max.
Water Washout, ASTM D 1264, 1 hour, 79° C, Loss	< 3%
Wheel Bearing Leakage, ASTM D 1263, g	< 5
Base Fluid Properties:	
Viscosity @ 100° C, ASTM D 445, Centistokes	17-21
Viscosity @ 40° C, ASTM D 445, Centistokes	240 - 250

Date: November 27, 2023

Product: Timken® High-Performance Roller Housed Unit Grease

## **Product Data Sheet**

Viscosity Index	145
Pour Point, ASTM D 97, Max.	-40° C
Flash Point, ASTM D 92, Min.	215° C

Date: November 27, 2023

Product: Timken® High-Performance Roller Housed Unit Grease
