

# TIMKEN

## Elevate food safety with the first blue polymer bearing housings that are optically detectable

### OPTICALLY DETECTABLE BLUE HOUSINGS

- Timken blue housings are USDA-accepted
- Blue is same wavelength as other optically detectable products
- Smooth, cleanable parts are ideal for HACCP and HARPC programs
- Dimensionally interchange industry standard mounted bearings in all sizes and styles from 1/2" to 3" and metric
- Available with Timken's Poly-Round® plane bearing or stainless ball bearing

# Timken Blue Polymer Housings

Strong, Clean, Traceable

Blue polymer housings are available in the same sizes and styles as original gray 'KG' polymer

Housings are USDA-accepted

## Choice of bearing inserts:

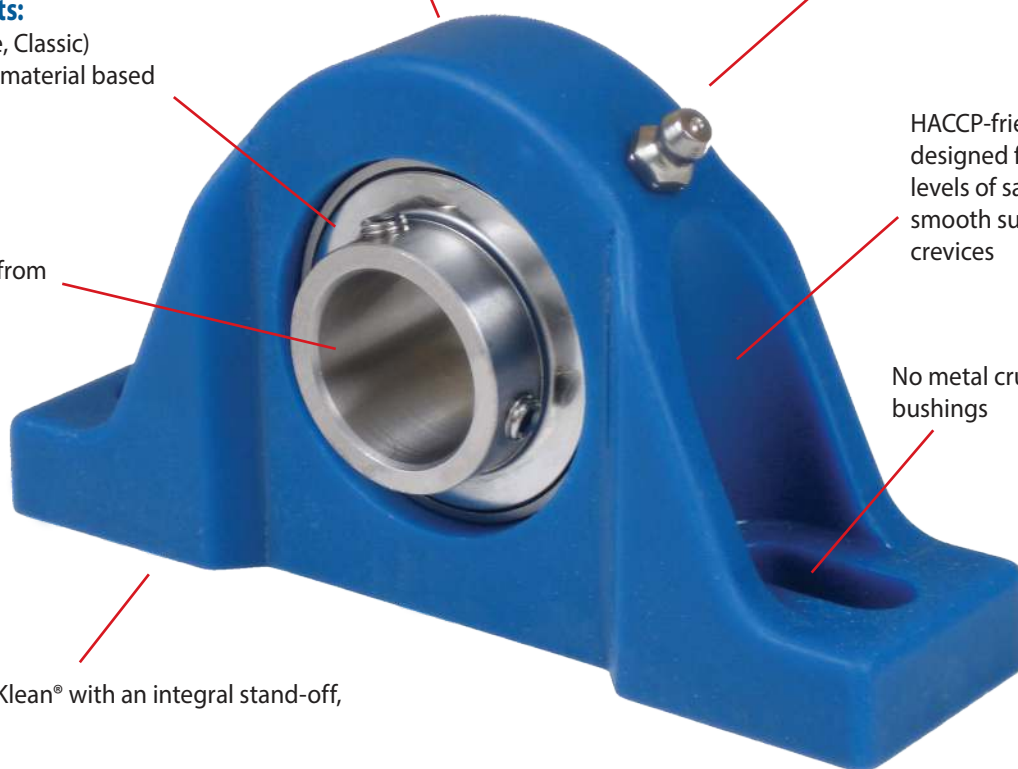

- Ball bearings (Choice, Classic)
- Poly-Round® (Select material based on the application)

Available in shaft sizes from 1/2" to 3";  
12mm to 80mm

HACCP-friendly units are designed for highest levels of sanitation with smooth surfaces and few crevices

No metal crush bushings

Also available in QuiKlean® with an integral stand-off, 5/8" above the base

Timken offers a wide range of housed units – spherical, tapered, ball and plain bearings – for many applications. With a choice of split and solid housings, seals, lubricants and other features, you can turn to Timken for your housed unit needs.

# TIMKEN

The Timken team applies their know-how to improve the reliability and performance of machinery in diverse markets worldwide. The company designs, makes and markets high-performance mechanical components, including bearings, gears, chain, belts and related mechanical power transmission products and services.

**Stronger. By Design.**
