

TIMKEN DRIVES™ EZ CHAIN TOOLS DELIVER VALUE WITH VERSATILITY

EZ BREAKER[®] CHAIN BREAKER

Make it easy on yourself the next time you need to break chain. With a simple pull of the handle, the compact Timken Drives EZ Breaker[®] uses powerful cam-action to push both chain pins through the link plates. Using the easily interchangeable precision die sets, you can cut the following roller chain sizes:

- 35 through 100H.
- 2040 through 2060H.
- 40-2 through 80-2.
- 550 through 557.

No more grinding off pin heads. No more hammers and punches.

EZ CHAIN WEAR GAUGE[®]

Use the patented Timken Drives™ EZ Chain Wear Gauge[®] to quickly check for worn chain. Simply slide the gauge between two roller links to the mark that corresponds with the size of the chain. If the gauge passes through the roller links, the chain is worn and needs to be replaced. It's a fast and efficient way to perform routine maintenance and prevent unexpected downtime.

Choose from two sizes:

- Small: Checks chain sizes 35 – 100.
- Large: Checks chain sizes 80 – 240.

Gauges for British standard chain, agricultural chain and single-sizes are available upon request.

EZ CHAIN RACK[®]

Make storing and cutting roller chain easy using the versatile Timken Drives™ EZ Chain Rack[®].

- Prevents chain from uncoiling with individual clutches on each station.
- Holds up to two, 50-foot reels on each of its four stations.
- Allows you to easily switch between chain sizes.
- Rotates in both directions.
