

Lubrication Selection Guide

TIMKEN
Where You Turn

The Timken Company, a global leader in bearing and steel technology, understands the importance of friction management. The Timken line of application- and environment-specific lubricants have been developed by leveraging our knowledge of tribology and anti-friction bearings and how these two elements affect overall system performance.

Timken lubricants help bearings and related components operate effectively in demanding industrial operations.

For more information on Timken lubricants, contact your authorized Timken distributor or sales representative or visit www.timken.com.

This selection guide is not intended to replace specific recommendations by the equipment builder who is responsible for its performance.
