Seal Maximizes Service Life

Advanced seal technology locks out dirt and moisture

- Molded, one-piece, rubberintegrated inner seal
- Auxiliary housing face seal
- Heavier seal contact
- Flexible composite retainer
- More effective seal than imports

Rugged Construction

- Integral bearing/housing
- Stamped, heavy gage housing
- Close clearance of stamping to inner ring shrouds, protects bearing
- Convenient lubrication fitting
- More durable than imports

Quick, Sure Installation

- Easy-handling, one-piece construction
- Designed-in dynamic alignability
- Composite retainer resists misalignment
- Faster, more positive alignment than imports
